

# IGUVERSE

Socialize To Earn

Move To Earn

Play To Earn

Help To Earn

IguVerse GameFi app redefines the whole concept of NFT using AI / ML technologies. Unique user-generated NFTs will become the new standard NFT 2.0, dethroning faceless collections. In our GameFi app, we introduce an innovative game mechanic Socialize to Earn, along with two more Earn concepts - Move to Earn and Play to Earn, where users can complete simple tasks like sharing pet photos on social media or walking and feeding them to get rewards.

## Fund raising

Total raise \$2,850,000
TGE Market Cap \$216,000
FDV Market Cap \$24,000,000

### Seed round, 12.5%

No TGE unlock, 12m cliff, 12m vesting

15% TGE unlock, 6m vesting

### Private round, 10.5%

100%  
5% TGE unlock, 1m cliff, 12m vesting

## Gameplay

IguVerse intends to make a breakthrough by incorporating social and community elements into the gamified app, giving fans of pets the opportunity to earn cryptocurrency from their everyday social media activities. Players will play a few different Mini Games in our App and earn reward tokens.

## IGU Token Utility

Governance and ruling BEP-20 Ecosystem token

Governance: IGU token holders will be able to stake their tokens and participate in governance voting. IGU token holders in later stages will be able to take key game decisions

Staking: Players will be able to stake their IGU tokens to earn regular rewards.

Payments: Players need an IGU token to buy new Playable Characters Pets
